

VIFORMATICS CYBERSECURITY SERVICES

Build today, thrive tomorrow.

MISSION & VISION

In today's interconnected world, we strive to create a safer digital world for our clients. We ensure peace of mind through comprehensive assessment protection and cutting-edge security strategies.

Our Mission

To provide innovative, reliable (state of the art, industry specific) cybersecurity solutions that protect businesses.

Our Vision

To be a global leader in cybersecurity, By providing world-class cyber security solutions building trust and resilience by safeguarding businesses.

DISCOVER OUR COMPERHENSIVE CYBERSECURITY SERVICES

- GRC
- OT/ICS SERCURITY
- ASSURANCE
- PRIVACY AND DATA PROTECTION
- VCISO
- BCM
- IAM
- FORESIGHT
- ACADEMY
- STAFF AUGMENTATION

GRC Services

CYBERSECURITY ADVISORY

Cyber Risk Assurance

- 1) Cyber Program Strategy & Roadmap
- 2) Integrated Risk Management
- 3) Third Party Risk Management
- 4) Virtual CISO Service
- 5) Cybersecurity Academy Design

Audit Readiness Services

1. Internal Audit
2. Audit Readiness Assessment - NIST, ISOs, HIPAA, PCI, etc.
3. Audit lifecycle management

Data Privacy & Protection

1. Data Privacy Strategy Framework
2. Data Privacy Discovery & Mapping
3. Data Privacy Assessments
4. RoPA, Consent & Cookie Management
5. Virtual Data Protection/Privacy Officer

Business Continuity & Cyber Resilience

1. Business Continuity & Resilience Strategy
2. Cyber Incident and Crisis Management
3. BCP/DR Planning, Design & Testing
4. Business Impact Assessment (BIA)
5. Tabletop Exercise (TTX) & Awareness
6. Functional Recovery Plans

Security Architecture & Engineering

1. Security Architecture as a Service
2. Enterprise Security Architecture Reviews (SABSA/TOGAF)
3. Transformation use cases support

CYBER TRANSFORMATION

Cloud Security

1. Cloud Security Risk Advisory
2. Cloud Security Compliance & Governance
3. Zero Trust
4. Cloud Transformation & Migration
5. CSPM, Container & Microservices Security

Infrastructure Security

1. Infrastructure Security for Endpoint, Cloud, Mobile, IoT, Network and ICS/SCADA (IIoT)
2. Network Segmentation
3. Firewall Security
4. Security investigations
5. Security Service Management

Identity & Access Mgmt. & Governance

1. Identity & Access Management
2. Access Governance & Certification
3. Privileged Access Management
4. Customer IAM (CIAM)
5. Robotic Identity Governance
6. Biometrics / Next Generation Authentication

OT/IoT Security

1. OT / IoT Security & Risk Management
2. OT Security Monitoring & Remediation
3. IOT / OT Device Testing & Remediation

CYBER OPERATIONS

Managed Security & Risk

1. Managed Governance, Risk, and Compliance (GRC)
2. Security Compliance Monitoring

Managed Cloud & Infra Security

1. Managed Cloud Security
2. Managed Infrastructure Security

Managed Digital Trust

1. Managed Identity & Access Mgmt.
2. Managed Data Security
3. Managed OT/IoT

Managed Application Security

1. Application Security Testing and Vulnerability Management
2. Penetration Testing

Threat & Vulnerability Management

1. Application Security Testing (SAST/DAST)
2. Vulnerability Assessment / Pen Testing
3. Dev Sec Ops
4. Advanced Adversary Simulation
5. Platform Security (SaaS, ERP)

OT/ICS SECURITY

BCM Services

Comprehensive Maturity
Assessments.

Regulatory Compliance
Assurance.

ISO 22301 Readiness &
Certification Support.

Disaster Recovery & IT
Resilience Strategies.

Crisis Management
Preparedness.

Enterprise Risk
Management Enhancement.

E2E BCM & RM Planning
& Implementation.

ERM System & Technology
Integration.

Third-Party BC &
RM Oversight.

Privacy and data protection

Offering

```
graph TD; Offering[Offering] --> CDP[Comprehensive Data Protection]; Offering --> DP360[DataProtector360 Framework]; Offering --> ES[Expert Services]; Offering --> SE[Standards & Expertise];
```

Comprehensive Data Protection:

Safeguard your sensitive information across all dimensions.

DataProtector360 Framework:

Our proven methodology ensures holistic data protection.

Expert Services:

- Privacy Risk Analysis & Data Discovery
- Gap Assessment & Control Implementation
- Target Operating Model Design
- Program Implementation & Training
- Ongoing Monitoring & Compliance
- PDPL Compliance: Expert guidance on aligning with data protection laws and regulations (SDAIA, NCA)

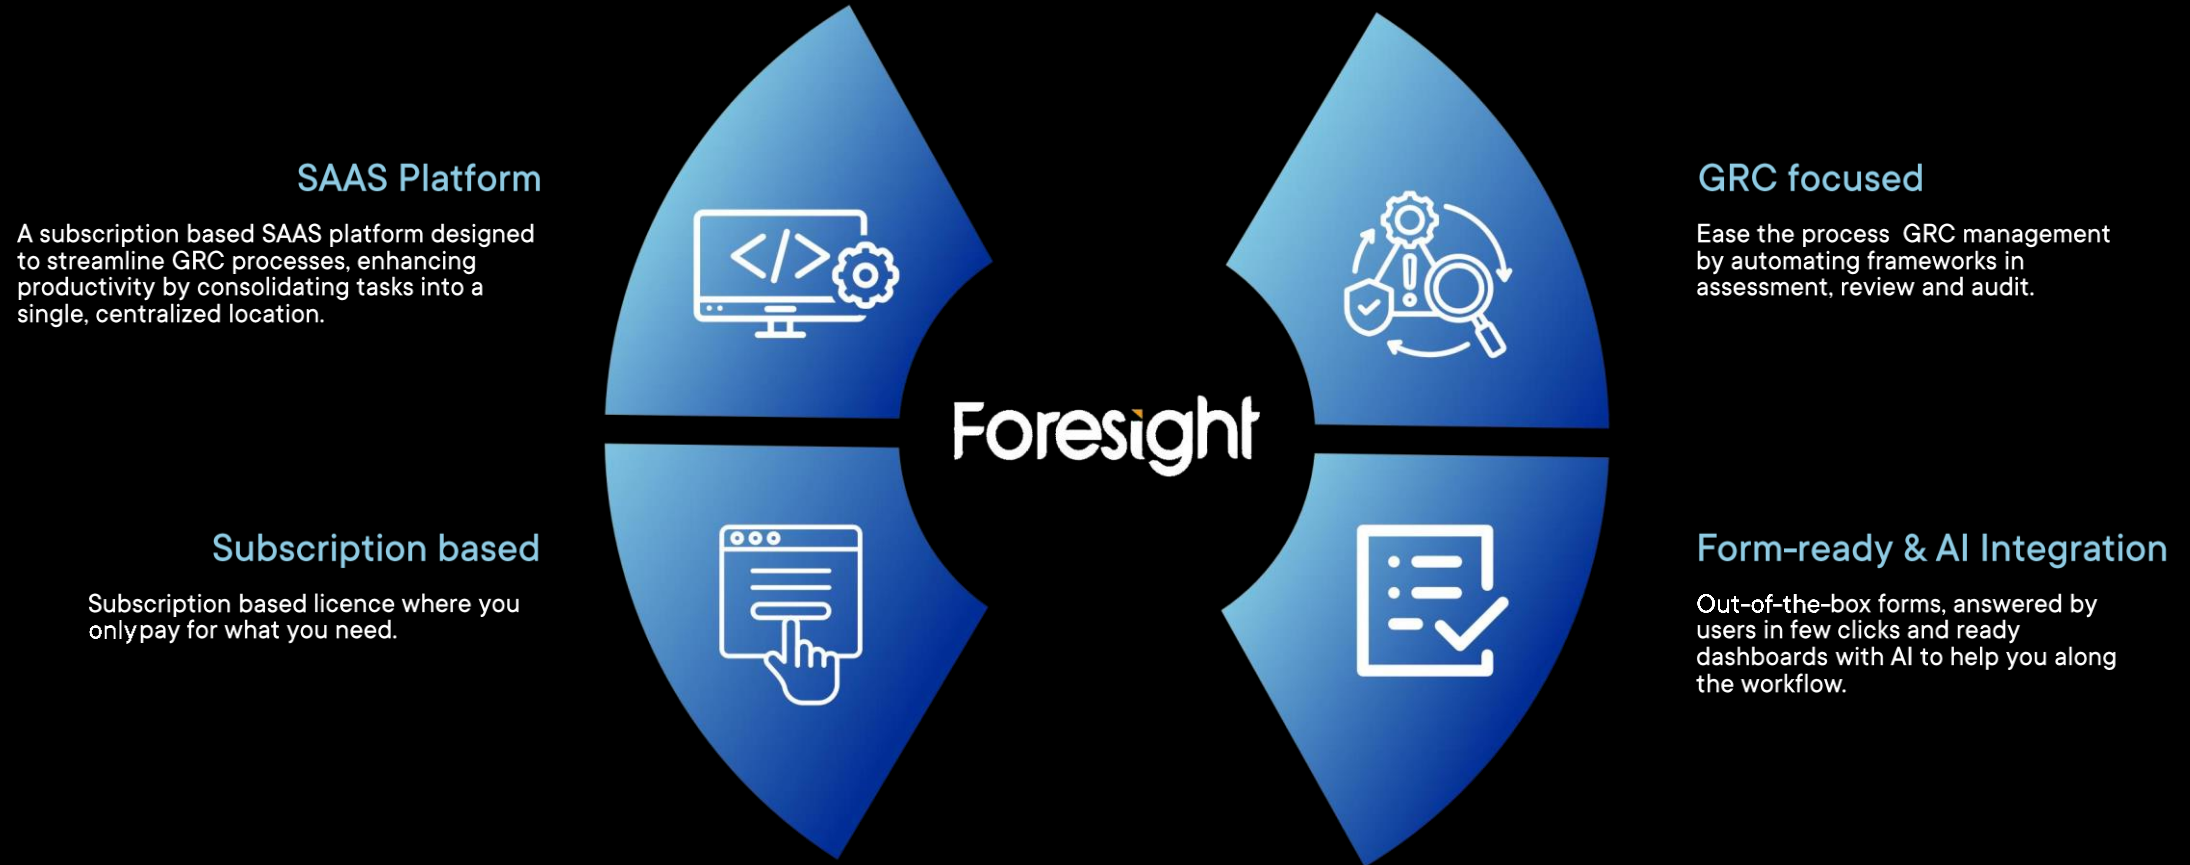

Standards & Expertise:

We adhere to international standards (ISO 27001, ISO 27701, NIST Privacy Framework, GDPR) and leverage our deep industry knowledge.

IAM Services

Foresight

Academy

Our training offering includes:

ICS/OT Security

Azure Security

GRC

SOC Security

Penetration Testing

Staff Augmentation

CYBERSECURITY SERVICES

Risk Assessment

Encompassing Risk identification, Risk Mitigation and Risk management

Audits and Consultancy

Audits and Consultancy on the Administrative Side

Cloud Infra Audit

AWS, Google, Azure, etc

Regulatory Audits

RBI, SEBI, UIDAI, IRDAI, NSDL, NSE, BSE, MCX, NCDEX, NPCI, PFRDA, DIGILOCKER, E-SIGN

ISO 27001, PCI

Implementation of various standards such as ISO 27001, PCI

Gap Analysis

Gap Analysis vis-à-vis HIPAA, ISO 27001, SoC,

CYBERSECURITY SERVICES

Data Center Audit

IOT Pen Testing

Web Application

Training

Architecture Consultancy

API VAPT audits

CYBERSECURITY SERVICES

Mobile Application VAPT

ERP Audits

RDBMS Audits

Forensic Investigations

Secure Source Code Reviews

Ethical Hacking

CYBERSECURITY SERVICES

Information Security Policies

Formulation Information Security policies, procedures, and guidelines based on ISO 27001, PCI-DSS, COBIT, and regulatory requirements."

Consultancy

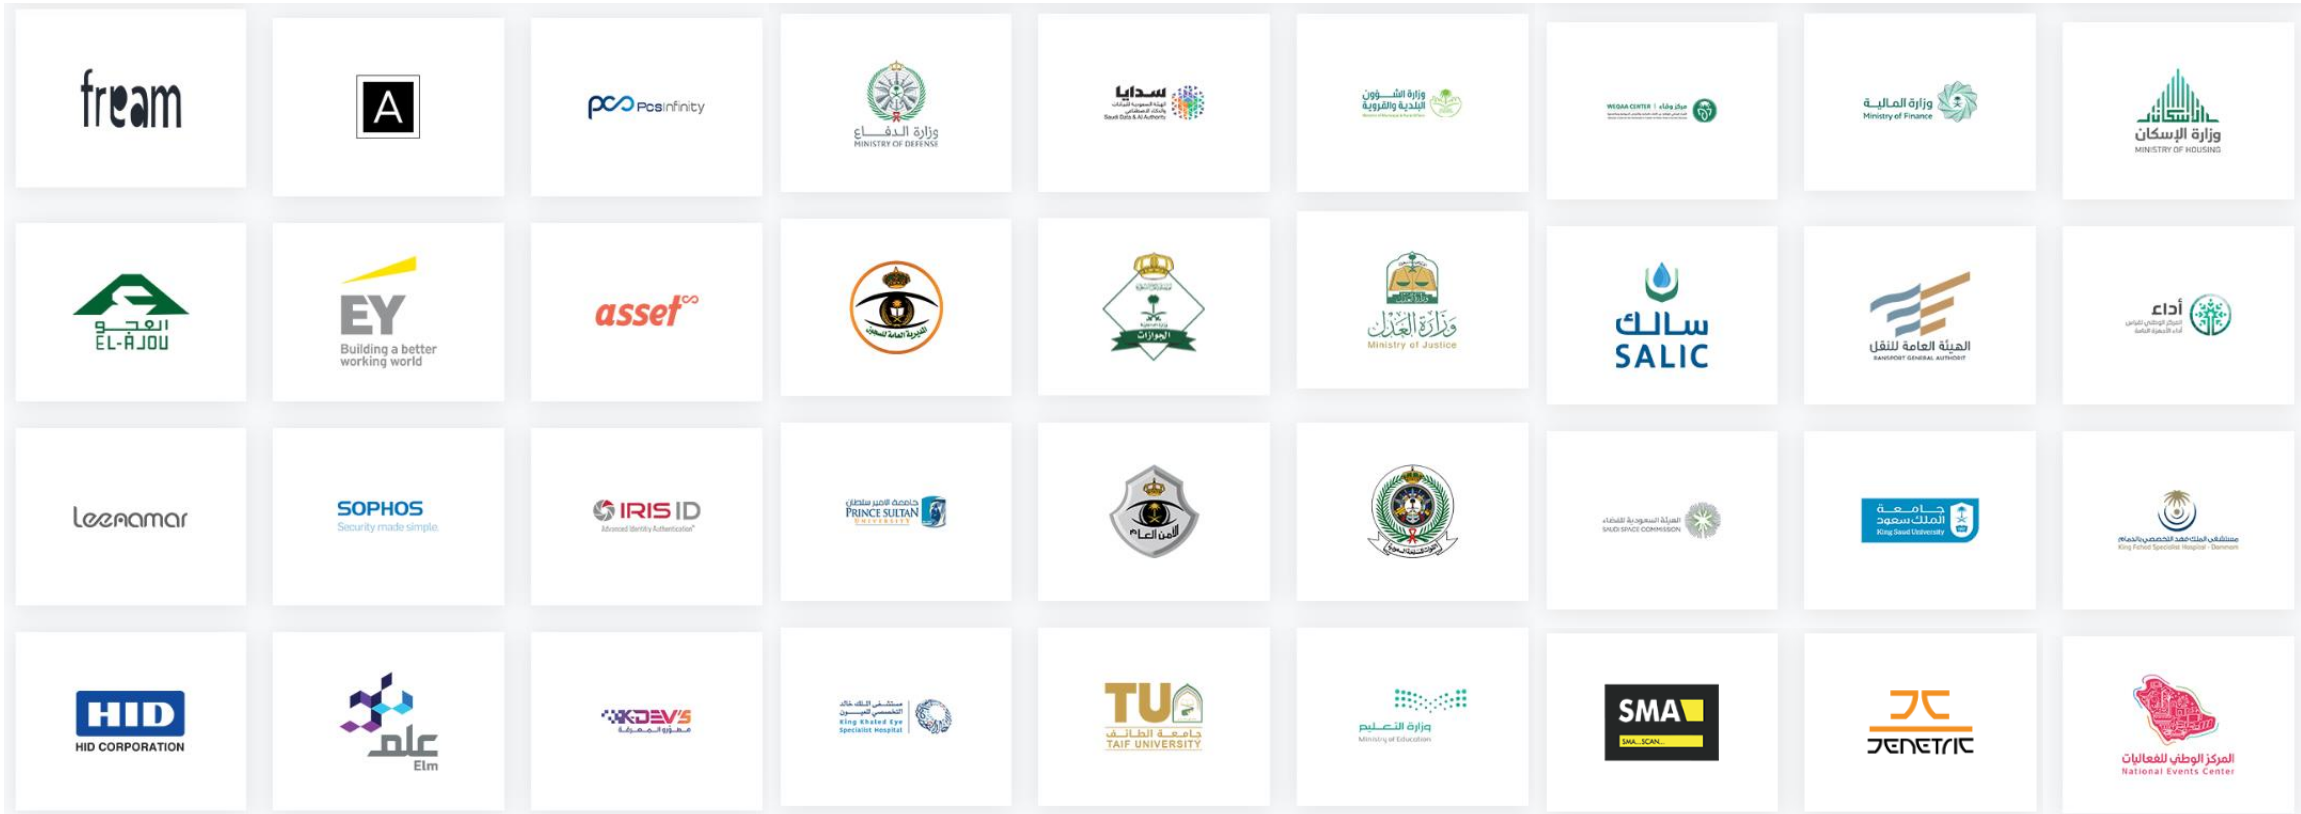

Consultancy in design, development and Implementation of Security & technology Architecture

Vulnerability Assessments

Vulnerability Assessments & penetration testing of networks, Security devices, Servers, network Devices

Our Clients

Thank You
FOR TRUSTING US
